

PRODUCE BAGS

Repurpose a T-shirt to make your own produce bags

How to make produce bags:

1. Gather the following items: T-Shirt, scissors, fabric pen, and sewing kit
2. Lay the T-Shirt flat and mark where you want to make the cuts with a fabric pen. Cut off the sleeves and neck, creating an arch shape at the top. Create one large mark at the center top and trim to place your hand or arm through. Don't trim off the bottom hem.
3. Turn it inside out and sew what is now the bottom of your bag closed.
4. BONUS: use the extra pieces of the T-Shirt (neckline and sleeve hem) to make your own ponytail bands.
